Enthusiastic and eager full-stack developer with a passion for creating innovative solutions. Recent graduate with a degree in Full Stack Web Developer and experience working on different projects using JavaScript, React, PostgreSQL, Node Js among other technologies. Well-versed in both front-end and back-end development, with a particular passion for front-end work and eager to apply these skills in a professional setting.

I participated in the creation of an E-commerce focused on smart phones sales. With creative thinking, problem solving, teamwork, communication and autonomy.

I'm seeking a challenging role in a dynamic company where I can contribute to the success and continue to grow as a full-stack developer.
